4 DAYS WORKSHOP ON **HOLISTIC PHYSICAL ASSET MANAGEMENT**

28 April - 1 May 2019

Wyndham Garden, Juffair
Kingdom of Bahrain

Introduction

Over the last few decades there have been major global advances in asset management standards, concepts and principles and organizations to understand the importance of implementing a holistic approach to asset management to realize maximum value from their assets. This course will provide participants guidance regarding the development, implementation and maintenance of an organisation's asset management system in the context of ISO 55000. It will also help participants to prepare for and write the Certified Asset Management Assessor (CAMA) Exam.

Why CAMA

The CAMA certification establishes an individual's credentials in asset management knowledge and comprehension, globally. The CAMA exam has been developed and is offered by the World Partners in Asset Management and the certification is granted upon successful completion of the 2 hour exam and demonstration of relevant experience. The CAMA certification benefits professionals who want to demonstrate their understanding of holistic asset management in the context of ISO 55000 and the competence requirements for the certification of asset management systems.

Key Take Away

- Understand the concept and importance of Asset Management
- Learn about the ISO 55000 suite of standards
- Learn about the different elements of an asset management system
- Understand how to implement ISO 55000 in your organization
- Maintaining and assessing the performance of an asset management system

Who Should Attend

- Asset Management practitioners
- Engineers/Managers from the Maintenance, Operations/Production, Supply, Project and Finance/Business Departments
- Professionals and consultants who are responsible for asset management.
- Aspiring Certified Asset Management Assessors
- Anyone else requiring an introduction to the key principles underpinning effective Asset Management systems and ISO 55000

Benefits of Attending

- Gain a thorough understanding of ISO 55000
- Establish thorough asset management knowledge with industry experts
- Prepare and to sit for the CAMA exam
- Reduce the pre-exam time and stress to prepare for the CAMA exam

Course Trainers' Description

Dharmen Dhaliah works as a Corporate Asset Manager and is published author of “Physical Asset Management – An Organizational Challenge”, and creator of the “HPAM Board Game” on Organization-Wide Physical Asset Management philosophy. He has over twenty-eight years of working experience in the private and public sectors where he has held various positions in physical asset management, maintenance management, reliability engineering, and project management in a wide range of industries. Dharmen holds a Master of Business Administration degree and is a Professional Mechanical Engineer, Certified Asset Management Assessor, Project Management Professional, Maintenance Management Professional, and Certified Maintenance & Reliability Professional. He is member of the Board of Directors for Asset Management Ontario and active member of the ISO Technical Committee TC 251/WG5. Dharmen is part-time instructor of the Maintenance Management Program (MMP), the Asset Management Professional Certificate (AMPC) program and the Certified Asset Management Assessor (CAMA) course.
